

THE **INVESTOR** DATABASE

2.5 Million UK Shareholders

UK Shareholders

Wealthy Private Investors

High Net Worth

The INVESTOR DATABASE is the most complete source of UK financial wealth data. It is flexible, accurate and responsive.

This unique file of 2.5 million records of shareholders in all of the FTSE quoted companies, from the largest to the smallest and from Blue Chip to the most speculative. This includes AIM quoted companies and Investment Trust shareholders, giving a unique insight into the investment wealth of the UK.

The unique factor with this information is that shareholders cannot successfully be geo-demographically profiled as they live in all areas of the country, from caravan parks, council houses and private rentals, to the most expensive of properties.

Base Rental	£160 per '000
Portfolio Value	£10 per '000
